

## ROAD SHOWS

Make your road show unique and unforgettable!

**You are bringing your messages to your customers. I was wondering...**

- Do you want to have your customers remember those messages?
- Do you want your event to stand out in your customers' minds?
- Do you want your customers to tell other employees at their company they should have been at YOUR program?
- Do you want your customers to actually ask you to come back and provide another meeting, as soon as you can?

**If so, then you need to go *beyond the usual* and provide your audience with something amazing and fun, as well as informative.**

**YOU NEED BOB GARNER**

Using his skills as an entertaining motivational speaker and funny keynote speaker, Bob delivers your specific message and then reinforces that information with astonishing demonstrations of mindreading and examples of ESP, as well as plenty of clean humor and audience participation.

**Bob is a perfect choice to:**

- Kick-off your meeting
- Keep the energy high at a mid-way point
- Introduce your speakers and emcee your program
- Wrap-up your event

**"If something didn't work, we wouldn't use it. Bob Garner always works! We used him at 8 of our road shows and the people always love him and look forward to seeing him. He will be at more of our road shows next quarter and beyond. Superb."  
- McAfee, Inc.**
